MODULE 1:
FreeStyle Libre | An Introduction

MODULE 2:
LibreView | An Introduction

3 CPD Points — per module

Certification End Date: July 2021

MODULE 1: An introduction to FreeStyle Libre and its digital ecosystem

At the end of this module, you will be able to explain the technology behind FreeStyle Libre

- » Understand the indication for use
- » Recognise how the sensor readings differ from blood glucose finger prick tests
- » Understand the key benefits of the FreeStyle LibreLink app compared to the reader
- » Be familiar with the set-up of the reader and sensor
- » Explain the different screens and reports on the reader and sensor

MODULE 2: An introduction to LibreView, the cloud based diabetes management system

At the end of this module, you will have a deeper understanding of:

- » How to get started with LibreView
- » Setting up a practice and care teams
- » How to invite patients to your practice
- » Customising patient dashboards
- » Viewing reports

For illustration purposes only. Not actual patient data.

*LibreView is compatible with the latest versions of the Safari, Internet Explorer, Chrome, and Firefox web browsers running on Mac OS X Mountain Lion or later and Windows 7 or later. †Use of FreeStyle LibreLink requires registration with LibreView, a cloud-based service developed by Newyu, Inc and provided by Abbott and Newyu, Inc. Data captured by FreeStyle LibreLink will be automatically uploaded to LibreView when the phone on which it's running is connected to the Internet.

The shape of the circle sensor unit, FreeStyle, Libre, and related brand marks are owned by Abbott. Information contained herein is for distribution outside of the USA only. Abbott Australasia Pty. Ltd., Abbott Diabetes Care, 666 Doncaster Road, Doncaster, Victoria 3108, Australia. ABN 95 000 180 389 ADC-24099 v1.0
