

LibreView

Welcome to LibreView. The all-in-one, secure, web-based data management platform for FreeStyle Libre.

Because LibreView is a web-based platform, you'll be able to access your patients' glucose information from anywhere with an internet connection, even outside the practice / office.

Get started with 5 easy steps...

STEP 1

Create a LibreView professional account

Go to www.LibreView.com – select **Sign Up** and **Professional Account**.

Complete the required account setup process.

STEP 2

Create a LibreView practice

This will allow you to **add Care Team members**, securely share patient information with your staff, and invite patients to upload glucose data remotely.

STEP 3

Invite and Manage Your Care Team

You can include other members of your team in your LibreView Practice. **Care Team members** in your LibreView Practice will have access to all the patient data in that Practice.

STEP 4

Invite Patients

From any screen, click the **Invite Patient** icon at the top of the screen, next to the search bar. Once a patient accepts your invite, if they are using the **FreeStyle LibreLink** app, their data will automatically upload into their profile each time they scan.

STEP 5

View Patient Reports

In a patient's profile under **Glucose History**, click the Glucose Reports button to see their data.

*Data presented is representative only and not of an actual patient.

LibreView, a product of Newyu, is supported on Windows and Mac-operating computers. Minimum system requirements for operating systems are Windows 7 or higher on Windows computers and Mac OS X Yosemite (10.10) or higher on Mac computers. Minimum system requirements for browsers are IE10 or higher, Chrome 37 or higher, Firefox 32 or higher, and Safari 8 or higher. It is recommended to use the latest version of your browser. LibreView can be viewed on iOS 6 or higher mobile devices. FreeStyle, Libre, and related brand marks are trademarks of Abbott Diabetes Care Inc. in various jurisdictions.
