

## Tuesday 22nd August Adelaide Oval

8:30 - 8:40	Welcome Address: Prof Chris Nolan
	WHAT'S NEW IN DIABETES TECHNOLOGY: SPONSORED SESSION 1
8:40 - 9:10	Chair: Chris Nolan Smart MDI, when monitoring may not be enough - Laura Zimmerman
	CGM Technology Across the Diabetes Spectrum with Dexcom
9:10 - 9:40	- Dr Sultan Linjawi
9:40 - 11:00	PLENARY SESSION: Diabetes innovations today, for a better tomorrow
	Chair: Prof Tony Russell  PANEL SESSION:
9:40 - 11:00	Exploring Diabetes Technologies: Unlocking the Opportunities and Addressing the Challenges
	<ul> <li>Prof Tadej Battelino A/Prof Glynis Ross</li> <li>Prof Ramzi Ajjan Dr Kenny Clark</li> <li>Dr Laurel Messer Prof Elizabeth Davis</li> </ul>
11:00 - 11:30	Morning Tea with our Sponsors
	WHAT'S NEW IN DIABETES TECHNOLOGY: SPONSORED SESSION 2 Chair: Prof Stephen Twigg
11:30 - 12:00	Control-IQ Technology Made Easy: Achieving optimal and sustained outcomes with Automation and Customisation! - Dr Laurel Messer
12:00 - 12:30	Time in range: Research to Reality - <b>Prof Tadej Battelino</b>
12:30 - 1:30	Seeing is believing: the added value of the data from a smart pen and CGM integration. Different patient segment case studies including FreeStyle Libre 2 and NovoPen 6 <b>Prof Ramzi Ajjan</b>
1:30 - 2:30	Lunch with our Sponsors
1:30 - 2:30	Lunch with our Sponsors  The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis
1:30 - 2:30 2:30 - 2:50	The complexities, intricacies and disparities of diabetes technology
	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis Diabetes technology selection - a model of care with a person-centred approach
2:30 - 2:50	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis  Diabetes technology selection - a model of care with a person-centred approach - A/Prof Gary Kilov AM  Socio-economic, cultural and geographical barriers and disparities in diabetes care
2:30 - 2:50 2:50 - 3:10	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis  Diabetes technology selection - a model of care with a person-centred approach - A/Prof Gary Kilov AM  Socio-economic, cultural and geographical barriers and disparities in diabetes care and technology - Kate Lomax
2:30 - 2:50 2:50 - 3:10 3:10 - 3:30	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis  Diabetes technology selection - a model of care with a person-centred approach - A/Prof Gary Kilov AM  Socio-economic, cultural and geographical barriers and disparities in diabetes care and technology - Kate Lomax  Health System Responses to innovation and technologies - A/Prof Glynis Ross  Healthcare navigation in a digitally connected world - does the hype live up to the reality? Toni Slotnes-OBrien  Panel and audience Q&A
2:30 - 2:50 2:50 - 3:10 3:10 - 3:30 3:30 - 3:50	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis  Diabetes technology selection - a model of care with a person-centred approach - A/Prof Gary Kilov AM  Socio-economic, cultural and geographical barriers and disparities in diabetes care and technology - Kate Lomax  Health System Responses to innovation and technologies - A/Prof Glynis Ross  Healthcare navigation in a digitally connected world - does the hype live up to the reality? Toni Slotnes-OBrien
2:30 - 2:50 2:50 - 3:10 3:10 - 3:30 3:30 - 3:50	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis  Diabetes technology selection - a model of care with a person-centred approach - A/Prof Gary Kilov AM  Socio-economic, cultural and geographical barriers and disparities in diabetes care and technology - Kate Lomax  Health System Responses to innovation and technologies - A/Prof Glynis Ross  Healthcare navigation in a digitally connected world - does the hype live up to the reality? Toni Slotnes-OBrien  Panel and audience Q&A  Quick Bytes - Showcase of programs from diabetes services
2:30 - 2:50 2:50 - 3:10 3:10 - 3:30 3:30 - 3:50 3:50 - 4:30 4:30 - 4:55	The complexities, intricacies and disparities of diabetes technology Chair: Prof Liz Davis  Diabetes technology selection - a model of care with a person-centred approach - A/Prof Gary Kilov AM  Socio-economic, cultural and geographical barriers and disparities in diabetes care and technology - Kate Lomax  Health System Responses to innovation and technologies - A/Prof Glynis Ross  Healthcare navigation in a digitally connected world - does the hype live up to the reality? Toni Slotnes-OBrien  Panel and audience Q&A  Quick Bytes - Showcase of programs from diabetes services Chair: Michelle Robins  PROM surveys with PERL: Improving survey workflows for Diabetes
